- Place notepads in central location for use only as-needed
- Turn off heating/cooling when meeting space not in use
- Offer paperless registration options or a conference app
- Encourage participants to bring reusable water bottles
- Offset the carbon created by your event using LightStay™ Meeting Calculator
- Publicize fitness amenities or offer classes for participants
- Host part of your meeting outdoors if available
- Turn off lights where available and enjoy natural light
- Use recycled materials and local sources for your collateral
- Donate unused supplies to a local school or charity

**Share with your guests your commitment to be more mindful, and encourage them to make healthy and ecofriendly choices of their own throughout the event.**
